SOVIET JOURNAL OF COMMUNICATIONS TECHNOLOGY & ELECTRONICS

CONTENTS 1986

Number 1

	English Page	Russian Page
F.Kh. Baybulatov, I.V. Minin, and O.V. Minin: Investigation of the Focusing Properties of a Fresnel-Zone Plate	1	1681
T.A. Tsaliyev and V.S. Cherenkov: Excitation of an Isolated Groove and the Equivalent Surface Impedance of Ribbed Structures	8	1689
A.G. Vinogradov and Z.I. Feyzulin: DirectionaI Properties of Antennas in a Turbulent Atmosphere with Short-Term Averaging. Geometrical Characteristics of the Radiation Pattern	14	1695
R.Z. Bakhtizin, S.S. Gots, and A.I. Tlyauberdin: Space-Time Correlation Functions of the Flicker Noise of the Field Current from Silicon	21	1638
Yu.R. Vinetskiy, M.A. Trishenkov, and T.A. Khromova: Current-Voltage Characteristics of the Input Circuits of Silicon Charge-Coupled Devices in the Transition Region from Weak to Strong Inversion	25	1643
B.B. Kuliyev: A Hydrogen-Sensitive GaAs MIS Structure	30	1648
G.I. Veselov, A.I. Kirpa, and N.I. Platonov: Description of the Nonstationary Excitation of Flat Dielectric Structures	33	1702
B.M. Kats, V.P. Meshchanov, and N.F. Popova: Synthesis of Stepped Microwave Loads	40	1709
D.I. Mezhuyev, A.M. Zaslavskiy, and S.G. Suchkov: Application of the Green's Function Method to Calculate the Characteristics of Filters Based on Near-Surface Volume Acoustic Waves	44	1713
V.A. Korobkin, N.I. Pyatak, and V.N. Velikotskii: Natural Oscillations of a Waveguide-Dielectric Resonator Based on a Magnetized Ferrite Specimen	49	1719
V.A. Kuznetsov, A.M. Lerer, and V.S. Mikhalevskii: Dielectric-Film Striplines	53	1723
N.F. Kovalev: The Theoretical Basis for the Transverse-Section Method in the Theory of Irregular Waveguides	60	1729
G.S. Kondratenkov, M.A. Mironov, V.N. Antipov, and A.T. Abrarov: Optimum Space-Time Processing of Signals in a Moving Radar Set with a Two-Dimensional Antenna Array	65	1734
V.D. Rubtsov and A.N. Zaitsev: Determination of the Probability Characteristics of Interference and Its Mixture with a Narrowband Signal from Experimental Data	73	1742
A.V. Zelenkov: Methods of Increasing the Accuracy of Measurements of the Mutual Shifts of Two Interfering Pulses Using Nonlinear Reverse Filtering and Linear Prediction	79	1748
A.V. Titov: The Use of Walsh Filters for Filtering Polynomial Signals	89	1759
V.K. Kornev and V.K. Semenov: High-Speed Electronic Analog of Josephson Contacts and Superconducting Quantum Interferometers	98	1768
G.V. Melekhin, I.Yu. Moskvicheva, V.A. Stepanov, and M.V. Chirkin: Stochastic Self-Excited Oscillations in the Glow Discharge Plasma of Helium-Neon Lasers	106	1776
M.B. Gornyy, D.L. Markman, and B.G. Matisov: Diffusion of Active Atoms in Double Radio-Optical Resonance	109	1780
R.A. Lachashvili, Ye.B. Piven', and L.V. Traube: Trajectory Analysis of Grid Post-Acceleration Systems	118	1789
A.A. Kurayev and A.K. Sinitsyn: Cascade Amplifiers Employing Relativistic Electron Beams with a Magnetostatic Converter	122	1794
F.S. Rusin and V.P. Kostromin: Effect of Shot Noise on the Frequency Stability of an Orotron	130	1802
Yu.V. Gulyayev and G.D. Mansfel'd: Calculation of Acousto-Electronic Effects in Semiconductors with a Periodic Array of Ohmic Contacts	134	1806
M.B. Nesvizhskiy: Expansion of the Aberration Coefficients of Cathode Electron-Optical Systems	142	1814
A.I. Bazhin, S.V. Teplov, and V.P. Shestov: The Kinetic Mechanism of Ion-Photon Emission	149	1821
V.S. Gorskhov and O.Yu. Naguchev: Low-Frequency Pulsations of the Virtual Cathode in an Electron-Beam Gate	154	1827
BRIEF COMMUNICATIONS		
S.M. Levitskiy and I.A. Anisimov: Emission of Electromagnetic Waves When a Region of Plasma Resonance is Excited with a Modulated Electron Beam	159	1862

Number 2

	English Page	Russian Page
V.F. Borul'ko: Analysis of Waveguides with a Small Sinusoidal and Smooth Perturbation of the Parameters	1	1873
F.G. Boydanov, G.Sh. Kevanishvili, Z.I. Sikmashvili, and O.P. Tsagareyshvili: Diffraction of a Plane Electromagnetic Wave by an Array of Circular Dielectric Rods	6	1879
B.S. Rybakov: Correlation Properties of Signals in the 10-Centimeter Band with Angular Diversity Reception along Marine Paths	11	1885
O.P. Frolov and V.G. Yampol'skiy: A Generalized Stability Function for Radio Links with Multibeam Signal Propagation	16	1890
M. Patek and A.P. Khapalyuk: An Optical Cavity Filled with a Longitudinally Inhomogeneous Lens-Like Medium	21	1895
A.G. Vinogradov and Z.I. Feyzulin: Directional Properties of an Antenna in a Turbulent Atmosphere Using Short-Term Averaging. The Energy Characteristics of the Radiation Pattern	26	1901
I.M. Braver, Kh.L. Garb and P.Sh. Fridberg: An Integral Equation for the Surface Current in the Problem of the Natural Modes of a Waveguide Containing a Resistive Film	33	1908
V.K. Bodulinskiy, B.Ye. Kinber and V.I. Romanova: Generatrices of Two-Reflector Antennas	40	1914
V.I. Gayduk, A.M. Kukebayev, S.V. Limonova, and B.M. Tseytlin: Resonant Variation of the Energy of Polar Molecules in Nonlinear Interaction with Radiation	44	1919
Ye.V. Balashova, G.T. Kazakov, and Yu.A. Filimonov: Effect of an Ideally Conducting Metal on Resonant Interaction between Magnetostatic Waves and Volume Elastic Waves in a Thin-Film Ferrite Structure	55	1930
V.A. Averochkin and P.Ye. Baranov: Statistical Characteristics of Sequential Signal Detection in the Presence of Correlated Interference	61	1936
V.V. Ivanov: A Method of Observing Indicators in the Discrete Realization of a Signal	65	1941
Yu.I. Savvateyev: Attainment of Invariancy with Respect to Random Perturbations in Radio Automata	72	1949
L.A. Reshetov: Parametric Stability (Robustness) of Pseudo-Bayesian Estimates	79	1956
V.P. Ipatov, V.I. Korniyevskiy, V.D. Platonov, and I.M. Samoilov: The Lower Limits of the Sidelobe Level of the Mutual Uncertainty Function of a Periodic Discrete Signal-Filter within a Narrow Doppler Band	85	1962
A.S. Pikovskiy: Synchronization of the Stochastic Self-Excited Oscillation Phase Using a Periodic External Signal	85	1970
A.A. Demin and S.O. Noskov: Investigation of the Uncertainty in Reconstructing an Optical Image from Its Autocorrelation Function	91	1975
V.A. Sivov and Yu.G. Pisarev: Stability of Phase-Lock Loops with Delaying Feedback	101	1986
A.S. Andreyev, Yu.V. Gulyayev, P.Ye. Zil'berman, V.B. Kravchenko, Yu.F. Ogrin, A.G. Temiryazev, and L.M. Filimonova: Magnetoelastic Effects in Tangentially Magnetized Yttrium Iron Garnet Films	107	1992
V.K. Kornev and K.K. Likharev: Chaos in a Superconducting Quantum Interferometer	113	1999
V.V. Krestinin, Yu.V. Manoshkin, and V.A. Tsar'kov: Investigation of the Characteristics of a Xenon-Helium Active Medium, Excited by a High-Frequency H-Discharge	117	2004
Yu.A. Yevseyev and K.L. Seleninov: The Ratio of Diffusion and Drift during Spreading of the "On" State in p-n-p-n Structures	122	2009
M.Ye. Gertsenshteyn and V.V. Klavdiyev: Phase Indication of Cyclotron Resonance in an Ion Beam	126	2014
V.A. Gubanov, A.L. Danilov, and P.G. Ivanov: Synthesis of Acoustic Surface Wave Transducers, Weighted by Removal of Electrodes	134	2021
M.P. Vasil'yev and M.A. Vishnevskaya: Use of Holographic Filtering in Acousto-Optical Devices	139	2027
N.A. Belov, A.V. Rodionov, and Ye.A. Rubakha: Experimental Investigations of the Thermal Fields of a Transistor Structure under Pulsed Conditions	144	2032
V.F. Krasnov and L.A. Tirovskiy: Grid Shutter in a Vacuum Photorecorder	150	2040
Ye.M. Gershenzon, L.B. Litvak-Gorskaya, and S.R. Filonovich: Mechanisms for Detecting Submillimeter-Band Radiation in n-InSb	154	2045
BRIEF COMMUNICATIONS		
F.K. Povolotskiy: Solution of the Problem of Obtaining a Stable Difference between Signal Phases	163	2054
V.G. Panchenko: Realization of Directivity Characteristics with a Minimum Sidelobe Level in Single-Reflector Antenna Systems	165	2056

	English Page	Russian Page
A.M. Andreyev, A.R. Vanyan, and N.M. Ramishvili: Application of the Self-Reproduction Phenomenon to Measure the Shape of the Surface of a Liquid Which is Perturbed by the Random Pressure of Ultrasound	167	2057
A.M. Shloma and A.V. Mamonov: Quasilinear Filtering of Gaussian Processes under Conditions of *a priori* Uncertainty	170	2059
Yu.V. Vvedenskiy, V.S. Syuvatkin, and A.A. Khrustalev: Investigation of the Phase Stability of Oscillations in Gunn-Diode Pulse Oscillators	174	2063
V.E. Gusakovskiy and S.V. Palkin: Probability Density of Elevation and Range Noise in the Case of a Log-Normal Distribution of the Signal Amplitudes	176	2064
G.V. Kolesov, I.M. Korzhenevich, V.B. Lebedev, and B.M. Stepanov: Relativistic Effects in a Traveling-Wave Deflecting System	178	2066
P.A. Petukhov and I.S. Zakharov: Photocurrent Kinetics in Bismuth Germanosillenite Metal-Semiconductor - Metal Structures Illuminated by Short-Wave Light	181	2068
Ye.V. Fatyushina, F.A. Gimel'farb, P.B. Orlov, A.G. Li and A.G. Lomotskiy: Ion Microanalysis of the Surface Layers of Solids as Hydrogen is Admitted	184	2071
V.V. Kucha, V.I. Mirgorodskiy, S.V. Peshin, and A.T. Sobolev: Limiting Parameters of Bismuth Germanate Acousto-Optical Elements for High-Resolution Spectrum Analyzers	188	2074

Number 3

V.B. Razskazovskiy and V.G. Sugak: Errors in Estimating Reflection Spectra in the Case of a Pulse Probing Signal	1	2081
A.F. Chaplin and M.I. Pavlikevich: Investigation of Waves in a Rectangular Waveguide Filled with a Layered Lossy Dielectric Material	8	2089
I.M. Braver, Kh.L. Garb, and P.Sh. Fridberg: Dispersion Properties of a Circular Waveguide Divided in Half by a Resistive Film	16	2097
R.S. Meiyerova, A.V. Popov, and S.A. Khozioskii: Conversion of Lower-Order Modes in Smooth Waveguide Transitions	25	2106
A.N. Komov, V.M. Treshchev, and G.P. Yarovoi: The Field Distribution and the Radioelectric Effect in a Layered Semiconductor Structure in a Partially Filled Waveguide	33	2114
S.M. Eremin and I.V. Lishin: Calculation of the Fields of Sources in Spherically Symmetric Inhomogeneous Isotropic Media	39	2120
Ye.V. Zamyatin and S.L. Prosvirnin: Diffraction of Electromagnetic Waves by an Array with Small Random Fluctuations of the Dimensions	43	2124
M.M. Glibitskiy and L.G. Sodin: A Comparison of Circular and Linear Adaptive Antenna	50	2132
G.Ya. Shaydurov, V.N. Luk'yanchikov, and G.N. Romanova: On the Ultrasonic Parametric Modulation of an Electromagnetic Wave at the Boundary between Water and Air	54	2136
L.I. Byalyy: Analysis of the Dynamics of a Digital Gradient Algorithm for Adaptive Signal Filtering	61	2143
V.A. Pogribnoy: The Use of Variable Delta Modulation in Digital Filtering and Correlation Analysis	67	2149
L.A. Gurkina and B.G. Danilov: An Investigation of the Effectiveness of Decomposition Methods for Synthesizing Multielement Interference Compensation Systems	75	2158
A.P. Shakhurin: Quasioptimum Algorithms for the Nonlinear Filtering and Interpolation of Markov Processes	81	2165
V.A. Averochkin, P.E. Baranov, and V.S. Tokolov: Synthesis of Cost-Effective Interference-Suppression Filters	90	2175
A.N. Dmitriyenko: Detection of a Deterministic Signal Buried in Non-Gaussian Interference with Unknown Parameters	95	2180
A.M. Shloma and V.P. Volchkov: Synthesis of Sliding Adaptive Filtering Algorithms under Conditions of Nonstationary Parametric Uncertainty	98	2184
A.A. Dvornikov, G.M. Utkin, and A.M. Chukov: Selection of the Parameters of a Self-Excited Oscillator Synchronization Circuit	102	2189
N.A. Azarenkov, A.N. Kondratenko, V.N. Mel'nik, and V.P. Olefir: Surface Waves at a Plasma-Metal Boundary, Propagating at Right Angles to a Magnetic Field	103	2195
V.I. Kanavets, A.V. Korzhenevskiy, and V.A. Cherepenin: Theory of a Multiwave Amplifier Employing Relativistic Cyclotron Oscillators	110	2202
M.A. Vlasov and S.V. Nikonov: Equilibrium of a High-Current Electron Beam with an Anisotropic Transverse Temperature	119	2212
B.A. Stryukov and A.V. Luk'yanchikov: Nonstationary Processes during Video-Pulse Excitation of an O-Type Traveling-Wave Tube	124	2217
V.A. Smolyar: Backscatteirng, Transmission and Energy Release in a Plate Bombarded by an Electron Beam	128	2221
R.L. Kavalov, Yu.L. Margaryan, and G.A. Papyan: Measurement of the Energy Spectra of Secondary Electrons for Controlled Secondary Electron Emission	136	2229

	English Page	Russian Page
B.V. Bondarenko, Ye.S. Bakanova, A.Yu. Cherepanov, and Ye.P. Sheshin: Effect of Forming on the Structure of Carbon Field-Emission Cathodes	141	2234
M.A. Vlasov, V.V. Glebov, O.A. Malafeyev, and D.N. Novichkov: Experimental Study of an Electron Beam in Drift Space	145	2239
Yu.L. Bobrovskiy and S.R. Zarembskiy: The Fixed-Node Approximation for Investigating Extended High-Perveance Beams	150	2244
N.S. Zhilin, V.A. Maystrenko, and A.V. Nikonov: Investigation of the Conversion Linearity of the Amplitude of a High-Frequency Signal by Ring Discrete-Sampling Converters	159	2254
BRIEF COMMUNICATIONS		
V.P. Danil'chenko and V.A. Kashchei: The Error in Measuring the Phase of an Optical Signal That Has Pass through a Multimode Optical Fiber	166	2261
L.B. Gol'dberg: A Dielectric Resonator as a Radiator of the Surface E-Wave of a Dielectric Waveguide	170	2264
E.A. Al'khovskiy, A.S. Il'inskiy, and N.K. Tsibizov: Calculation of the Dispersion Characteristics of Circular Corrugated Waveguides with Corrugations of Arbitrary Shape	173	2266
G.S. Misezhnikov, A.G. Sel'skii, and V.B. Shteinshleiger: On the Focusing Properties of an Aperture Antenna in an Absorbing Medium	175	2268
Ya.D. Lebedev and M.D. Shagalov: The Electrical Conductivity of Gallium Nitride n-i Structures	178	2273
B.B. Kuliyev, F.G. Aliyev, S.I. Kasumov, and D.M. Safarov: Gas-Sensitive Metal - Oxide - Semiconductor Structures	180	2277
I.V. Malyshev: An Analysis of the Constancy of the Slope of the Control Characteristic in MIS Transistors Made from Different Materials	183	2280
G.A. Zykov, V.G. Levandovskiy, V.I. Panichevskaya, S.V. Panfilova, and G.Ye. Chayka: Effect of Current Flow on the Reliability of Schottky-Barrier Diodes	186	2282

Number 4

G.M. Aristarkhov and V.P. Chernyshev: Equivalent Mode Representation of Microstrip Filters Using Multiconductor Lines with Unequal Phase Velocities	1	2289
O.P. Frolov: Distributions of the Rate of Fast Signal Fades in Tropospheric Radio Links	8	2298
V.M. Pavlov and Yu.S. Rasshcheplyayev: The Possibility of Compensating Regular Ionospheric Errors in Radio Altimeters	12	2302
A.G. Kyurkchan and M.Kh. Zimnov: Coupling between Antennas on a Cylinder in the Presence of Ribbed Structures	18	2308
L.T. Remizov, A.G. Paskual', V.A. Yepanechnikov, and I.V. Oleynikova: Statistical Properties of the Time Intervals between Atmospheric Interference Pulses in the VLF Band	25	2316
